The flowers are very sweetly scented with true rose fragrance.

In growth, Chrysler Imperial Rose is compact, and symmetrical. Its abundant, dark green, semi-glossy, disease resistant foliage gives the bush the appearance of a handsome garden shrub.

**Germain’s Fabulous Rich Red**

**Sweet Heart**

Grow

24 PINTS OF BERRIES FROM JUST ONE DOZEN PLANTS THE VERY FIRST YEAR!

**THINK OF IT!** Huge, deliciously sweet, rich red "SWEETHEART" Strawberries often as early as 60 days after planting.

Germain’s outstanding new Strawberry "SWEETHEART" is so prolific it produces a full, abundant crop the very first year. Planted in Spring, it will bloom and set berries in 6 to 8 weeks. The berries are of such exceptional size you’ll say you never saw strawberries so big before. The color is brilliant sparkling red and the luscious, firm flesh is deliciously sweet.

In California and the West it bears three main crops each year and out-produces all other varieties by a wide margin, even in the first year. From commercial growers, reports of 2,000 crates, or 12 one-pint baskets each, per acre are not uncommon even in first season plantings.
